

Allow us the opportunity to enhance your business operations.

"Using an aircraft to collect meter data allows efficiencies which can add up to massive economic and environmental savings" says Rick Unrau, President of Stratocom.

Our team remotely captures meter readings for natural gas, water, and electrical utilities in a fraction of the time currently offered in the market. Stratocom can provide your business with highly accurate and cost-effective meter reading services.

It's fast. It's reliable. It's accurate.

Stratocom means:

- Huge geographic capabilities and efficiencies
- Low environmental footprint
- Time & Cost savings
- Accurate and Timely

**If you want accurate readings with efficiency and reduced costs,
