## INDRO MEDIA RELEASE

Stratocom Receives Contract to Install Modernized Natural Gas Distribution System in Northern British Columbia

VANCOUVER, BC. – Stratocom Solutions Corp. which has pioneered the use of aerial meter reading in 2011, has been **contracted by Itron, Inc.** to install their Automated Meter Reading (AMR) solution, including 500G Encoder Receiver Transmitters (ERTs<sup>®</sup>), **to modernize its natural gas distribution system.** Stratocom will be **installing 20,000 ERT's** over the next 4-6 months starting February 1st, 2021.

"PNG(NE)'s goal is to fulfill the energy needs of our customers in the safest, most reliable and most efficient manner," said Dominic Feenan, director of Operations and Customer Care at PNG(NE).

"With decades of experience in bringing safety, efficiency and innovation to natural gas utilities, Itron is a proven provider of natural gas solutions," said John Marcolini, senior vice president of Networked Solutions at Itron. "We look forward to collaborating with PNG(NE) to delivery new value and better serve the utility's energy consumers with our AMR solution."

"We are delighted to provide our experience and collaborate with PNG and Itron to **increase productivity and accuracy in meter reading** for utility customers. Being able to bring this technology to communities will **change the world of meter reading for the better** and we are so excited to be a part of it," says **Suzette McFaul, Business Manager of Stratocom Solutions Corp.**

## ABOUT STRATOCOM

Stratocom pioneered the use of aerial meter reading in 2011. Starting with one Natural Gas Co-op in Alberta with 3,200 meters, the testing revealed a reduction in time of 85% over the traditional drive-by method to collect the reads. Since then, Stratocom has refined the process and developed other patent pending technologies.

Stratocom's mission is to use technology to provide industry real time, economic efficiency, best in class data collection and management services that support achieving strategic and financial goals: "Intelligence Through Smart Data".

Stratocom is part of the Indrocorp Group of Companies.

## ABOUT INDROCORP

Based in Vancouver, B.C. Indrocorp is a global assembly of companies providing data collection, monitoring, and leading-edge technology services to a wide spectrum of client sectors and industries.
